

WE VOTED FOR INDEPENDENCE
WHICH INCLUDES
ENSURING THAT THE BRITISH FISHING WATERS ARE
RETURNED TO THE UK

The Government is adopting the terms of the EU's Common Fisheries Policy in the Repeal Bill. This means the EU CFP rules will become British law. Why run the risk of adopting status if we're going for new UK policy? Is this the second betrayal of our fishing communities?

Fishing For Leave, the industry campaign group, URGENTLY needs our support. Please email or post the template letter below to our MP at sarah.wollaston.mp@parliament.uk or post to Sarah Wollaston MP, The Constituency Office, Station Road, Totnes, TQ9 5HW. Better still, write your own letter. Remember to include your name, address and post code and request a response.

Fishing For Leave Facebook and Twitter have a lot more information and are well worth a visit.

OUR FARMERS NEED OUR SUPPORT TOO

Please sign and share these petitions with your friends and family. This weekend there will be extensive media coverage on the issue of the welfare of animals at slaughter and of the need for informative labelling. We need parliamentary debates as a matter of urgency.
