

## Health and Social Care Category Award: Local Government Chronicle (LGC) Awards 2018

### Winner: Torbay and South Devon Foundation Trust & Torbay Council – New Model of Care – Torbay and South Devon Integrated Care

Julien Parrott, UKIP councillor and Executive Lead for Adults and Children, Mayor's Cabinet, Torbay Unitary Council has won a prestigious award for his work on the council. He is proud to represent UKIP and is doing a tremendous job.

In October 2015, the coming together of acute and community health and social care services in Torbay resulted in an integrated care organisation that has listened to feedback from local people about how they want to experience health and social care services. The organisation is improving people's experience by providing care that feels co-ordinated and person-centred, and gives users more say in decisions and supports them to manage their health and wellbeing. More than £200,000 has been invested in voluntary sector wellbeing co-ordinators in every locality, and the intermediate care team has expanded by 60 staff, helping more people to stay at home.

#### **Here is what the judges had to say about Torbay's entry:**

*"The panel said that our winner could demonstrate the true impact with impressive stats. This project can deliver demonstrable change with clear scope for further sustainable transformational change."*
